MAGELLAN PETROLEUM CORPORATION PROFIT REPORT For the Year Ended June 30, 2006 (Dollars quoted are US\$)

Magellan Petroleum Corporation recorded net income of \$749,000 for the year ended June 30, 2006, compared to \$87,000 for the previous fiscal year.

Revenues are up for the year by \$4.7 million or 21.5%.

Oil sales increased approximately \$3 million due to an increase in sales volume and prices. Volume in the Cooper Basin and Nockatunga increased by 22,853 barrels, which was offset by a decrease in Mereenie sales of 19,878 barrels. The increase in the Cooper Basin (18,761 barrels) is due to Kiana-1.

Gas sales are up \$1.6 million over 2005. This is essentially due to an increase in average price per MCF of \$3.04 in 2006 from \$2.67 in 2005, a 37% increase.

Total costs and expenses increased \$1.8 million over 2005 to \$23.7 million.

Production costs increased \$2.1 million to \$8.2 million in 2006. This is primarily due to expenditures for the Mereenie workover program.

Exploration and dry hole costs decreased approximately \$900,000 to \$3.3 million in 2006. This is due to the fact that more money was spent on potential producing assets in 2006 versus 2005 and was capitalized. This relates primarily to the success of Kiana, Currambar and Udacha.

Depletion, depreciation and amortization costs decreased \$717,000 to \$6.3 million in 2006. Depletion expense for the Palm Valley and Mereenie fields decreased \$1.2 million during the 2006 period primarily because of a decrease in depletable costs of \$5.1 million. This decrease was partially offset by an increase in depletion for the Nockatunga project (\$378,000) and properties in the Cooper Basin (\$198,000) primarily because of a higher depletion rate for 2006 due to a change in reserve estimates.

Page 2

During the third quarter, the Company recorded an asset retirement settlement loss of \$445,000 related to the Mereenie field.

Shareholder communications costs increased \$223,000 to \$450,000 in 2006 essentially due to printing costs related to the exchange offer.

Other administrative expenses increased \$662,000 to \$1.5 million in 2006 primarily due to a non-cash charge for directors' stock option expense of \$365,000, increased marketing costs of \$191,000 and a charge to bad debts of \$48,000.

Further details are provided in the Preliminary Final Report to the Australian Stock Exchange, a copy of which is attached.
