PART I FINANCIAL INFORMATION

MAGELLAN PETROLEUM CORPORATION

December 31, 1994

Item 1. Financial Statements - Notes

The information for the three and six month periods ended December 31,

1994 and December 31, 1993 is unaudited but includes all adjustments which the Company considers necessary for a fair presentation of the results of operations for those periods. All adjustments are of a normal recurring nature. The consolidated financial statements include the Company's 50.7% owned subsidiary, Magellan Petroleum Australia Limited ("MPAL").

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity and Capital Resources

Consolidated

At December 31, 1994, the Company on a consolidated basis had approximately \$9,682,000 of cash and cash equivalents. A summary of the major changes in cash items during the period is as follows:

Cash and cash equivalents at beginning of period	\$ 8,351,000
Cash provided by operations	5,366,000
Net additions to property and equipment	(2,735,000)
Cash dividends paid to MPAL minority shareholders	(1,673,000)
Other	372,000

Cash and cash equivalents at end of period	\$ 9,681,000
	=====

As to the Company (unconsolidated)

At December 31, 1994, Magellan Petroleum Corporation ("MPC"), on an unconsolidated basis, had cash and cash equivalents of approximately \$2,003,000. MPC's normal annual operating budget is approximately \$800,000 and its current cash position and its future dividends from MPAL should be adequate to meet its current cash requirements. MPC also has available a \$1.5 million bank line of credit. MPC has in the past invested and may in the future invest substantial portions of its available funds to maintain its majority interest in MPAL.

PART I FINANCIAL INFORMATION

MAGELLAN PETROLEUM CORPORATION

December 31, 1994

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Cont'd)

During December 1994, MPC received a dividend of \$1,718,000 from MPAL less \$258,000 of Australian withholding taxes. The net proceeds of \$1,460,000 were added to MPC's working capital.

As to MPAL

At December 31, 1994, MPAL had cash and cash equivalents of approximately \$7,679,000. MPAL has budgeted approximately \$1.0 million for exploration in fiscal 1995 in comparison to the \$1.6 million incurred during fiscal 1994. The current composition of MPAL's oil and gas reserves are such that MPAL's future revenues in the long term are expected to be derived from the sale of gas in Australia.

MPAL expects to fund its exploration and development costs through its cash flow from Australian operations, and if necessary, any additional requirements from its A.\$10 million bank line of credit.

Results of Operations

Three month period ended December 31, 1994 vs. December 31, 1993.

The Company had a consolidated net loss of \$122,659 for the three month period ended December 31, 1994 compared to net loss of \$183,134 for the comparable 1993 period. The components of consolidated net loss for the comparable periods were as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Cont'd)

The following table is a summary of the depreciation, depletion and amortization expense (in thousands) by geographic area:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Cont'd)

Shareholder communications increased 161% primarily because of a timing difference in the holding of the Annual Meeting of Stockholders between the two periods.

Other expenses decreased 85% primarily because of increases in consulting, rent and business taxes.

Interest expense is the cost of maintaining the Company's lines of credit.
